

Letter Openers

- Faster and more efficient than opening envelopes by hand.
- Neat, clean opening without the risk of contents, such as a cheque, being damaged.
- Gets opened mail to where it's needed faster.
- Cuts out a time-consuming, labour intensive chore and improves staff morale.
- Cost-effective in saving time for everyone, from mail clerks to top management.

1215 Hand Fed Letter Opener

Extremely versatile, it can open envelopes of practically any size, shape or thickness more quickly and efficiently than by hand. It trims the envelope's edge, making a clean opening, without damaging the contents.

Three edges may be trimmed, if required, enabling the envelope to be opened out flat, a particularly useful feature for mail order firms and offices receiving quantities of cheques and postal orders.

OL400 Semi Automatic Letter Opener

This letter opener will make short work of opening large volumes of mail. Simply place a pile of envelopes on the feed deck and they will be automatically fed through to the stacker tray, ready to have the contents removed.

With a 400 item per minute processing capability, the OL400 will certainly reduce the time spent on the mundane chore of opening letters. For maximum accuracy, this model also incorporates an operator adaptable fine cut mechanism, ensuring the width of cut can be changed to protect envelope contents.

1250 Automatic Letter Opener

This heavy-duty, high-speed model provides by far the quickest and most efficient means of opening large volumes of mail.

Fully automatic, the large capacity feed hopper will accept envelopes from 76mm-152mm high, 152mm-305mm long and up to 3mm thick without pre-sorting.

A pull back feeder fence, for easy loading, ensures a fast flow of mail through the cutting blades. The machine can also be used to process one-off bulky envelopes.

Specifications

1215 Hand Fed

Dimensions

Length 450mm

Height 143mm

Depth 230mm

Feed Capacity

Opens envelopes up to a maximum of 330mm wide

Max compressible thickness 6mm

OL400 Semi Automatic

Dimensions

Length 845mm

Height 215mm

Depth 290mm

Feed Capacity

Opens envelopes up to a maximum of 240mm x 330mm

Max compressible thickness 10mm

1250 Automatic

Dimensions

Length 770mm

Height 290mm

Depth 520mm

Feed Capacity

Opens envelopes 76mm-152mm high 152mm-305mm long

Max thickness 3mm

Manual

Opens envelopes up to a maximum of 229mm x 305mm

Max compressible thickness 16mm

Minimum height of envelope 127mm
